

Parking & Transportation Guide

At the UCCU Center

Utah Valley University [UVU], Utah Transit Authority [UTA], and the Utah Department of Transportation [UDOT] have partnered to improve access to UVU Campus and to relieve stress on transportation and parking during times of heavy congestion due to UVU and Community activity in the area. This document is intended to assist visitors and guests of the UCCU Center in transportation and parking at Utah Valley University.

As we are hosting your event, please keep in mind that school is in session. We usually anticipate parking and traffic congestion on the days of large events. Please note the following suggestions to lessen the impact in our student parking areas. This can significantly improve your event experience. We appreciate your thoughtfulness and cooperation.

1. UTA provides many options to travel to and around the UVU campus area through Frontrunner, UTA Bus, and UVX services. Check the UTA website at Rideuta.com to find a route that will get you to campus with less traffic/parking hassle.
2. The UVU Pedestrian Bridge provides pedestrian access over I-15 between UVU main campus in lot L-14 and UVU West campus at the UTA Orem Front Runner station.
3. When attending events with friends or family, opting to carpool greatly improves parking space availability and relieves congestion when entering/exiting UVU campus.
4. If driving, allow extra time to arrive on campus and to find a parking spot. It is much easier to beat the traffic and find a parking space if you arrive early.
